 - Kit to organize airway and also can be used as an independent kit.
 - Laryngoscope handle - 1
 - Laryngoscope Blade - 2
 - Guedel airway set (0,1,2,3,4) - 1
 - Endotracheal fuse set - (6,7,8,9) - 1
 - Adhesive tape - 1
 - Kit bag
 - Magill Adult - 1
 - Magill Pediatric - 1
 - Mouth Wedge - 1
7. Emergency Kit
 - Safety bag with 2 small side pockets and hard plastic case (removable) with Velcro lock & Shoulder strap
 - Sphygmomanometer - 1
 - Stethoscope - 1
 - Oxygen bottle 0.5L – 1
 - Oxygen pressure reducer with diaphragm fixed calibration - 1
 - Connecting tube - 1
 - Resuscitation Bag - 1
 - Adult mask V - 1
 - Pediatric mask III - 1
 - Portable manual aspirator - 1
 - Guedel airway set (1,2,3) - 1
 - Magill Forceps - 1
 - Universal scissor - 1
 - Tongue forceps - 1
 - Tourniquet - 1
 - Plastic penlight - 1
 - Emergency blanket – 1
 - Portable Vacuum Aspirator / Suction Suture kit
 - First Aid Kit
 - Medicines consumables as per the requirement
 - Resuscitation equipment
 - Pulse Oximeter
8. Universal Head Immobilizer
9. Emergency Ventilator
10. Power backup

B. Communication Equipment
