Tender Notice for Rate Contract of Manual Vacuum Aspiration (MVA) Kit

Tenders are invited from reputed Companies/ Manufacturers/Authorized agencies for rate contract of Manual Vacuum Aspiration (MVA) Kit used to provide safe abortion services at District Hospitals & PHCs of the State. Each MVA kit comprises of 1 MVA Aspirator and cannulae of progressively increasing sizes from 4mm to 12 mm. All the equipment has to be supplied to the office of Civil Surgeon cum Member Secretary, District Health Society of all the districts of Bihar. Rates quoted must include the cost of packaging and safe transportation of the material to destination as mentioned. The specification of MVA aspirator and cannula that have to be supplied district wise with quantity and quality is attached in Annexure I along with the tender.

The total no. of equipments required is as follows:

Particulars	Detail of requirement	Total No. of Kits required (It may vary as per the requirement)
MVA Kit	149 FRUs - 8 MVA kit per FRUs 320 PHC - 2 MVA Kits per facility 7 Medical Colleges – 20 kits per Medical College	1982 Appx. MVA kits

Interested and serious bidders must submit Technical and Financial bids separately in two envelopes:

- 1) Envelope containing technical bid should be marked as **“Cover A- Technical Bid for Rate Contract of MVA Kit”**
- 2) Envelope containing Financial bid should be marked as **“Cover B- Financial Bid for Rate Contract of MVA Kit”**

Both these envelopes have to be enclosed and sealed in a large envelope marked **“Bid for Rate Contract of MVA Kit”**

Technical Bid: The technical bid must include the following papers. All the papers have to be attested by an authorized signatory of the bidding agency

1. Tender bid is invited directly from Manufacturers or Direct Importers/Authorized agencies/ Authorized suppliers. Companies/firms which have been blacklisted by Central Government/ any State Government / PSU undertakings or SHSB or deregistered/ debarred by Government of Bihar/SHSB are barred from participating in this tender. Their bids will not be considered.
2. Bidder shall submit an affidavit sworn before First Class Magistrate stating that “the company has not been blacklisted by the Central Government/Government of Bihar and/or by SHSB, and further the company has not been de-registered/ debarred by Government of Bihar and/or by SHSB

3. The bidding agency is required to furnish a brief write-up, with adequate data explaining and establishing the agency's capacity/capability (both technical and financial) to carry out the job (if awarded) within the stipulated time period, after meeting all its current/present commitments.
4. Annual turnover should not be less than five crore rupees per year for the financial years 2009-10, 2010-11 and 2011-12. Photocopies of audited annual balance sheet along with profit and loss statement for the three financial years 2011-12, 2010-11, & 2009-10 must be submitted. For Annual Turnover Certificate of CA will not be considered for turnover.
5. Attested copies of acknowledgement of filed Income Tax Return for assessment year 2010-2011, 2011-12 & 2012-13 have to be submitted.
6. Attested copy of VAT/CST registration certificate must be submitted with registration status of not less than three years .
7. However, Bidder from outside the state with CST registration would have to get his company registered with Bihar State Sales Tax Department within 15 days of award of the tender.
8. The agency should have a PAN card issued in its name.
9. The agency is required to submit proof of having supplied similar material over last three years to office of CMO/Civil Surgeon of any state/PSU hospitals/Medical Colleges. Self-attested copies of work orders and a successful completion of the work order are required to be submitted along with.
10. Demand Draft of Rs 50,000/- (Rupees Fifty Thousand) in favour of State health Society, Bihar and payable at Patna must accompany the technical bid as refundable EMD.
11. The firm has to submit Quality Assurance Certificate by BIS, ISI, CE, FDA, (as applicable) for the Kits to be supplied.

Demonstration of Kits :-

The technically qualified bidder shall be asked to make demonstration/display, at their own cost, of quoted kits/instruments before the members of the Expert/Technical Committee including Third Party Specialist nominated by SHSB.

Financial bids of only those technically qualified bidders will be opened, whose kits/ are found to be as per tender specifications and approved after demonstration by the Committee. One set of MVA kits will be retained by State Health Society; Bihar for comparison of quality of supplied material after financial bid is finalized. The kit of unsuccessful bidders will be returned to them at an appropriate time.

Financial Bid, marked as Cover 'B' should contain only rates for different items specified in the attached list, and in the specified format (below). The rates must include the cost of transportation of items to district level office of Civil Surgeon/All District Health Society other District level office.

Sl. No.	Name of the Instrument	Cost of items (The cost to be inclusive of all taxes/services and provisions mentioned in the terms of Tender)
Schedule No	Item description (respective to schedule)	Amount in Indian Rupees in number & word format

Terms & Conditions:

1. Cost of each and every item has to be quoted separately.
2. The bidding agency has the option to quote for more than one model for a particular item at the same earnest amount.

3. An affidavit in original has to be enclosed in Cover 'B' (Financial Bid) envelop stating that that the rate quoted in this financial bid is at least 20% less than its MRP and the rate quoted in this financial bid, is not more than the rate quoted by the agency in any other Government/organization for supply.
4. Rate quoted shall be inclusive of Sales tax, VAT, Excise duty/ Custom duty, freight, insurance, any other taxes and transportation cost up to delivery points of district Headquarters.
5. Price List must be enclosed with the Financial Bid.
6. *Financial bid must be typewritten not handwritten without any overwriting or correction or erasure.*

15. The tenders would be opened on 02.09.2013 at 4 PM . the bidders may be present at the time of opening of the tender.

**Secretary, Health cum
Executive Director
State Health Society, Bihar**

Anx-I

Characteristic	Specification
Holding Capacity	Provides 60cc of volume.
Suction Capacity	Provide a minimum of 24 inches Hg of mercury/609.6 mm of mercury (vacuum) and is tested to maintain this vacuum for at least thirty minutes.
Compatibility with Cannulae	Aspirator is compatible with cannulae sizes 4-12 without the need of an adapter.
Valve Design	The valve liner is removable by opening a hinged valve body. Valve features double locking valve allowing the vacuum to be created prior to the procedure. The valve liner provides a clear fluid path. Aspirator is capable of being assembled, charged and ready to use 30 minutes before the procedure and not lose vacuum.
Cylinder Design	Aspirator features secure stopping mechanism for plunger when pulled. Collar stop is able to be displaced or removed for removal of plunger. Devices are engraved with manufacturer's logo and autoclave temperature. Cylinder is marked in 10cc increments to measure evacuated uterine contents.
Plunger Design	Aspirator has ergonomic handle.
Packaging	Aspirator is individually packed and has lot number and expiration date printed on the label.
Processing Methods	Aspirators are able to <ul style="list-style-type: none"> o be boiled and steam sterilized (autoclaved) at 250°F or 121°C and sterilized with STERRAD 100s and o be processed by standard cold methods (Cidex ®, Cidex OPA, 0.5% Chlorine, Sporox® II).
Shelf Life	Aspirator has an expiration date of 5 years from month of manufacture and be delivered with no less than 3 years of life remaining.
Reuse	Aspirator has passed laboratory testing of 100 HLD or Sterilization processing cycles. Aspirator is suitable to be reused a minimum of 25 - 50 times under normal use and maintenance.
International Certification	Conforms to FDA requirements or is cGMP manufactured. Aspirator must be manufactured at a facility compliant to ISO 13485 and holds a GMP certificate issued by appropriate regulatory agency in the country of origin. Device bear self-declared CE mark.
Manufacturer	Manufacturing process includes documented rigorous quality assurance procedures and inspection plans. The Manufacturer retains sufficient samples required to perform complete compliance tests from each lot shipped, for a period one year after the printed expiration date.
Quality Assurance	All aspirators are traceable by lot in case of complaints or instrument failure. The aspirators are designed, manufactured and packed in such a way that their intended use is not adversely affected during transportation and storage.

Component	Description	Material Type
Plunger	Component that inserts into the cylinder and when pulled, creates the vacuum.	Polypropylene
Cylinder	Main holding vessel of the aspirator.	Polypropylene
Valve Body	Case to enclose the valve mechanism.	Polypropylene
Collar Stop	Clip on top of the cylinder, which prevents the plunger from being removed from the cylinder.	Polypropylene
O-ring	Rubber ring inserted onto the end of the plunger making the plunger slide into the cylinder and creating a vacuum.	Buna-Nitrile rubber
Buttons	Knobs when pressed close off the liner that creates a vacuum when plunger is pulled.	Polyetherimide (Ultem)
Liner Clamp	Mechanism that closes off the liner, which creates a vacuum in the cylinder when plunger is pulled.	Polyetherimide (Ultem)
Liner	Soft tubular part that clamps off to create the vacuum.	Poly-dimethylsiloxane
Valve Cap	Component at the end of the valve body. Helps to hold the cannulae or adapter in place.	Polypropylene
